

KULTURISK WORKSHOP

DISASTER RISK REDUCTION IN ITALY: NATIONAL STRATEGY IMPLEMENTING HFA

Italy: a disaster prone country

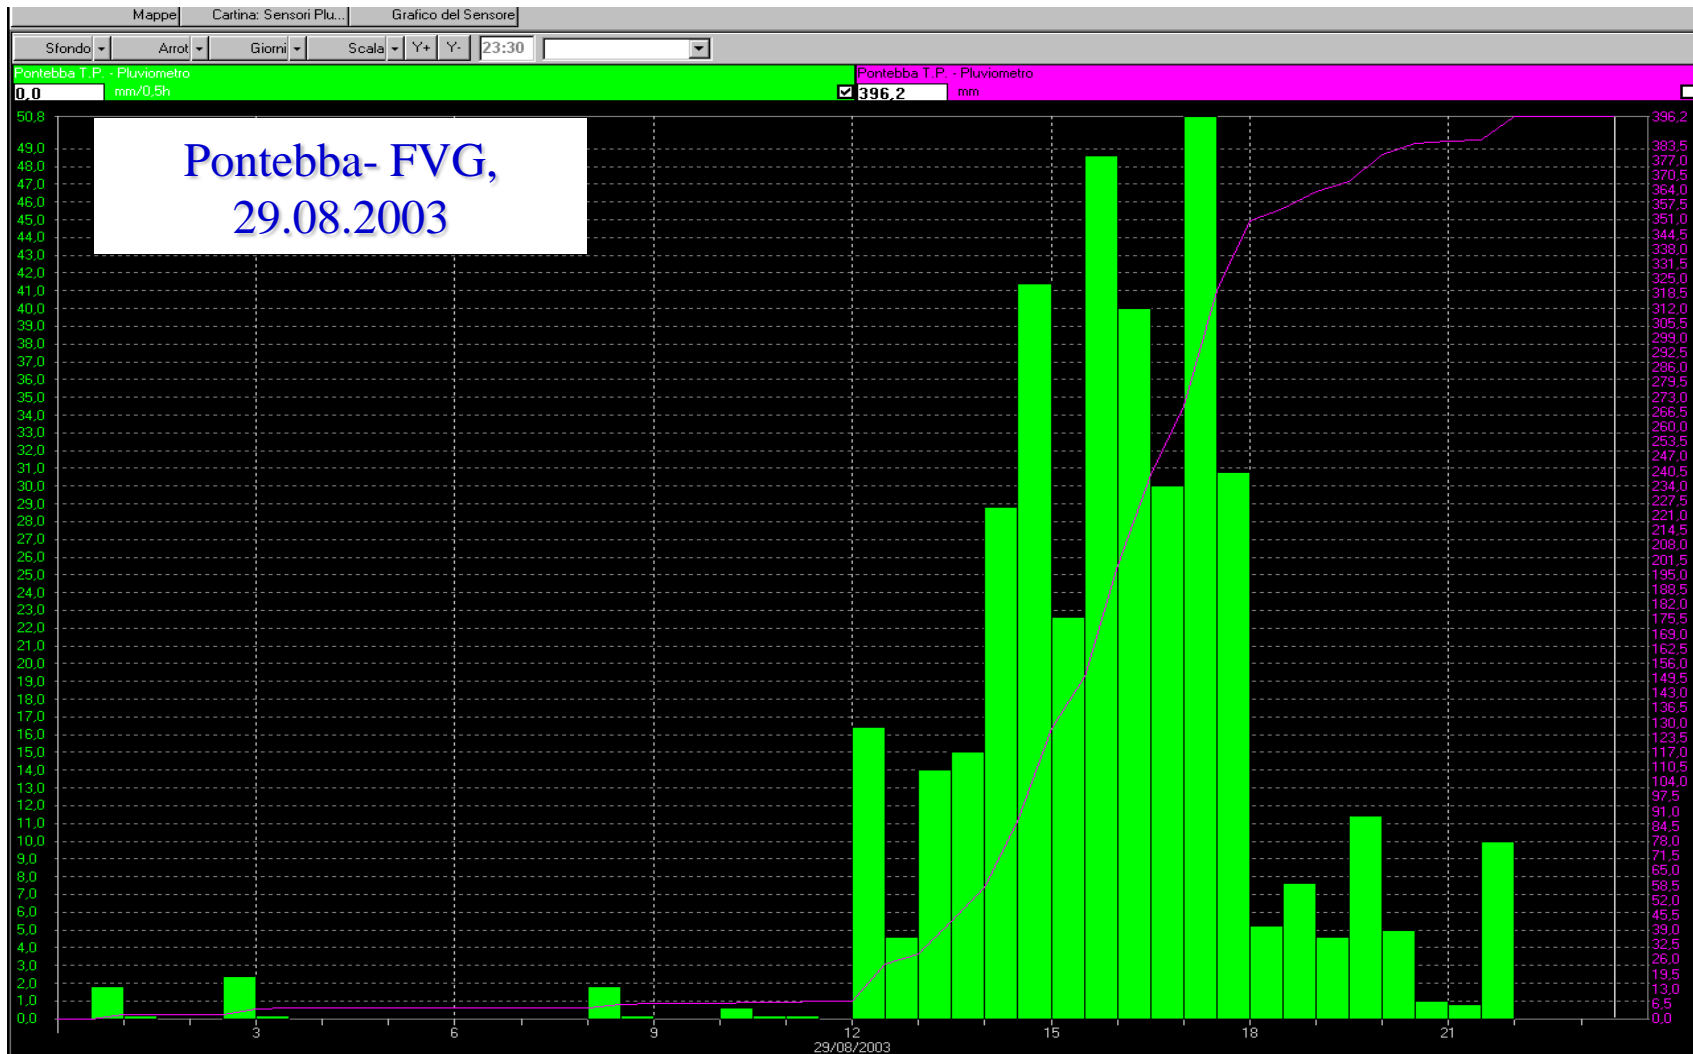

Pop. 60.000.000; 8100 municipalities; 72% with a pop. ≤ 5000

Development or urban growth ?

The Mediterranean Storms

Direct Impact

Loss of life and damages

Side effects – leading capacity

Side effects – financial impact

Biomedical factories
Ceramics
Parmesan
Balsamic vinegar
fodder for livestock
.....

1,5% GDP

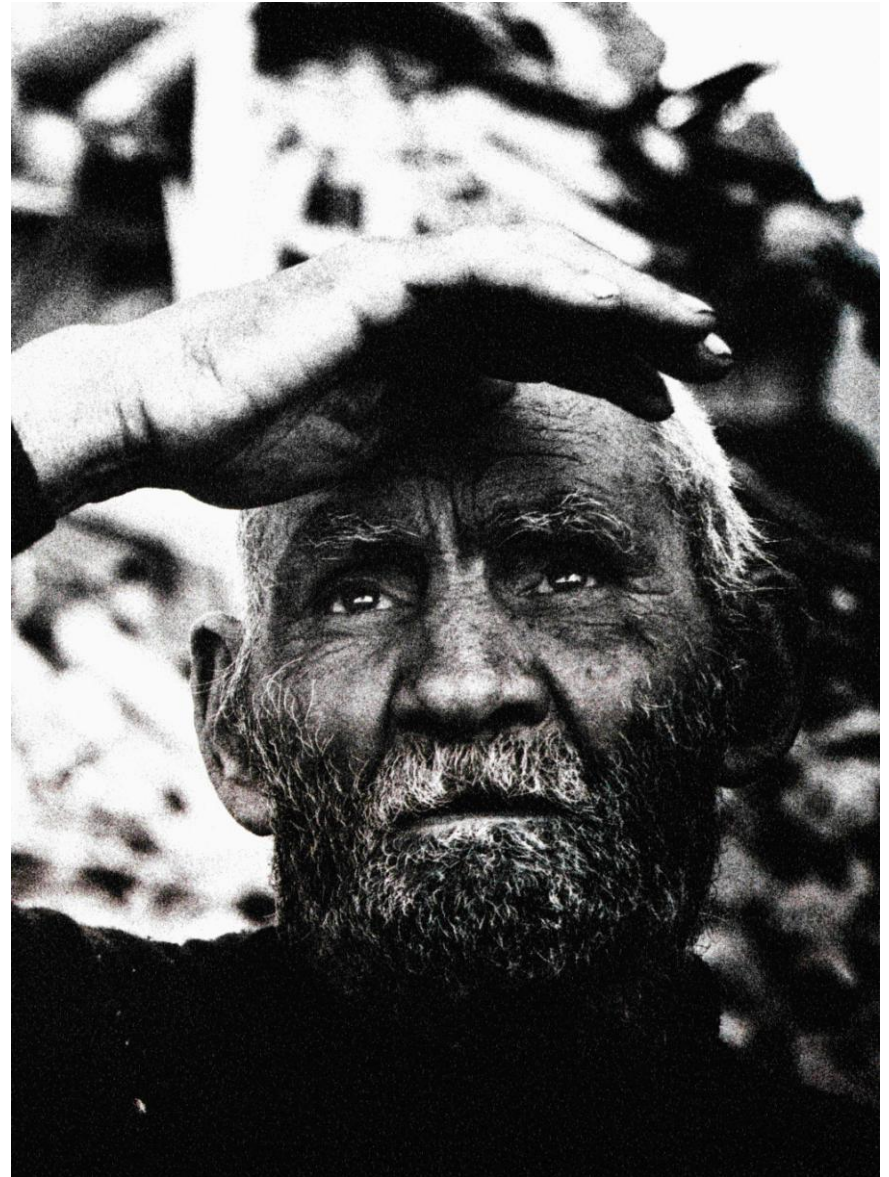

Side effects – Damage to Cultural Heritage

Social impact

- Unemployment
- Disruption of services and productive activities
- Emigration
- Lost of identity and hope

Lesson Learnt 1/2

- Need to look for multi risks approach;
- Which focus on multifaceted impacts: physical, environmental, financial, cultural and social;
- Needs must be identified at local level;
- Strategies must be defined at central level;
- Participatory approach: involvement and commitment of all stakeholders, including private sector and general public is the “SINE QUA NON” PRECONDITION

Lesson Learnt 2/2 Theory...

- National strategies must be first adapted, then adopted and implemented at local level;
- Resources must come from joint efforts;
- Subsidiary principle, first horizontal and then vertical
- Comprehensive DRR activity: risks identification and mapping, citizen awareness, proper land use planning, monitoring and early warning systems, emergency response

Do like the priest says...not as he does

practice...

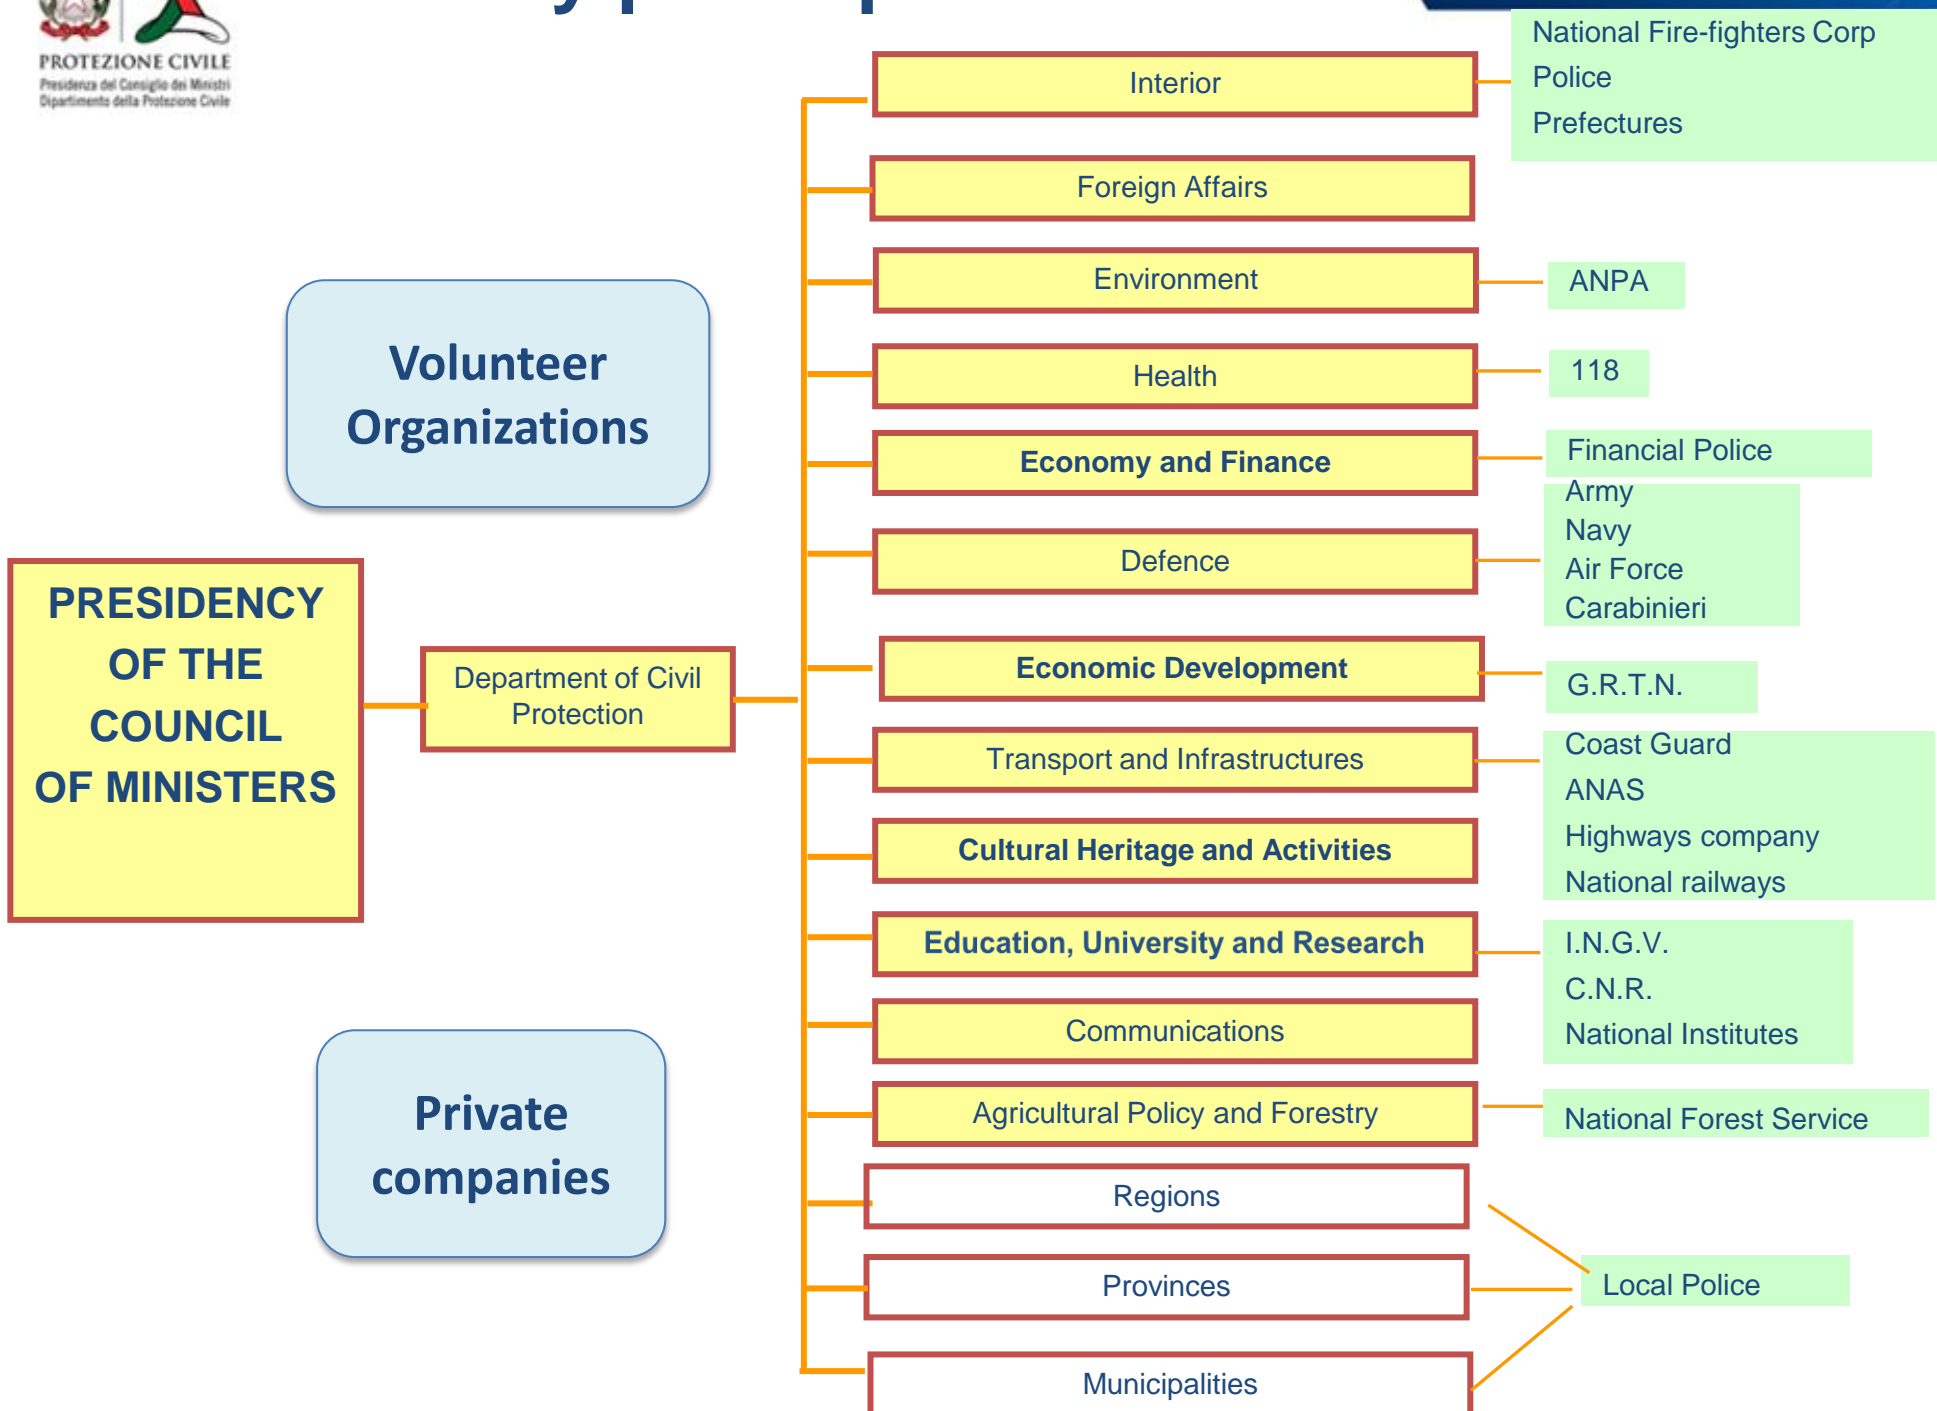

National Civil Protection Service,
In charge for DRR,
Established by law 225 in 1992

Chaired by the Civil Protection
Department
to identify and involve all the
public/private structures
necessary to cope with disasters
to ensure unified coordination and
direction at national level

to support all the operational
structures involved by collecting
and sharing data and information

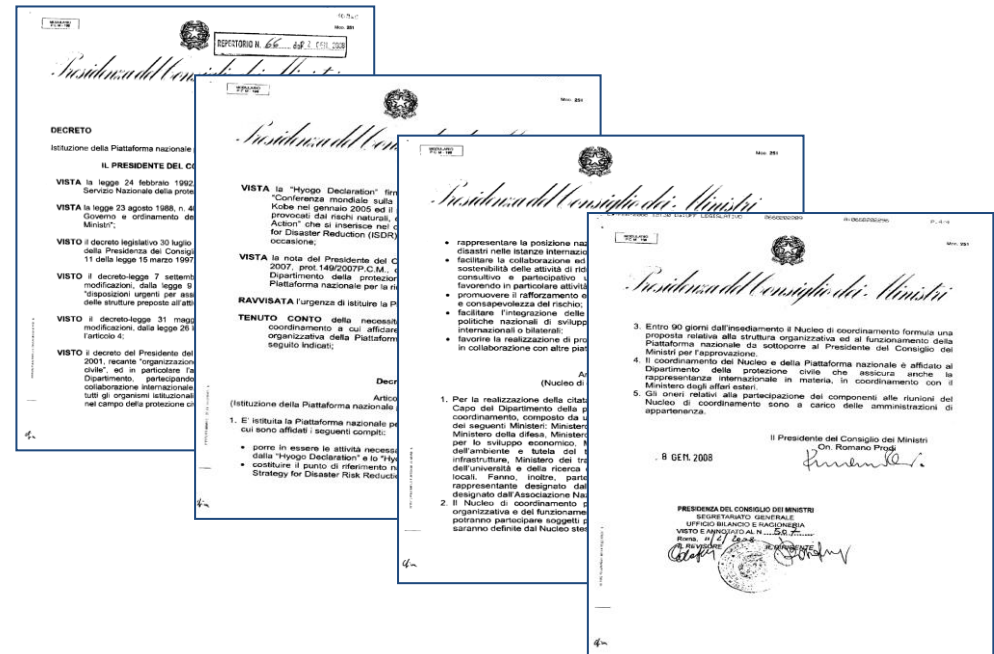

Plenary participation

HFA Strategy

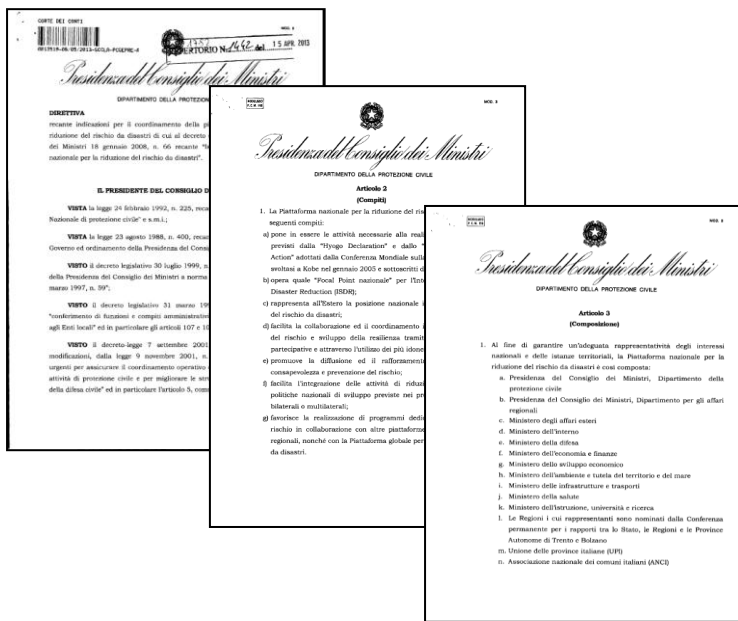

Prime minister's decree n. 66/2008

By which the prime minister established a national platform for disaster risk reduction, entrusting the national civil protection department (IDCP) with the duty of chairing a coordination panel consisting of the various ministerial representatives in charge of defining the organizational structure of the platform and the platform charter

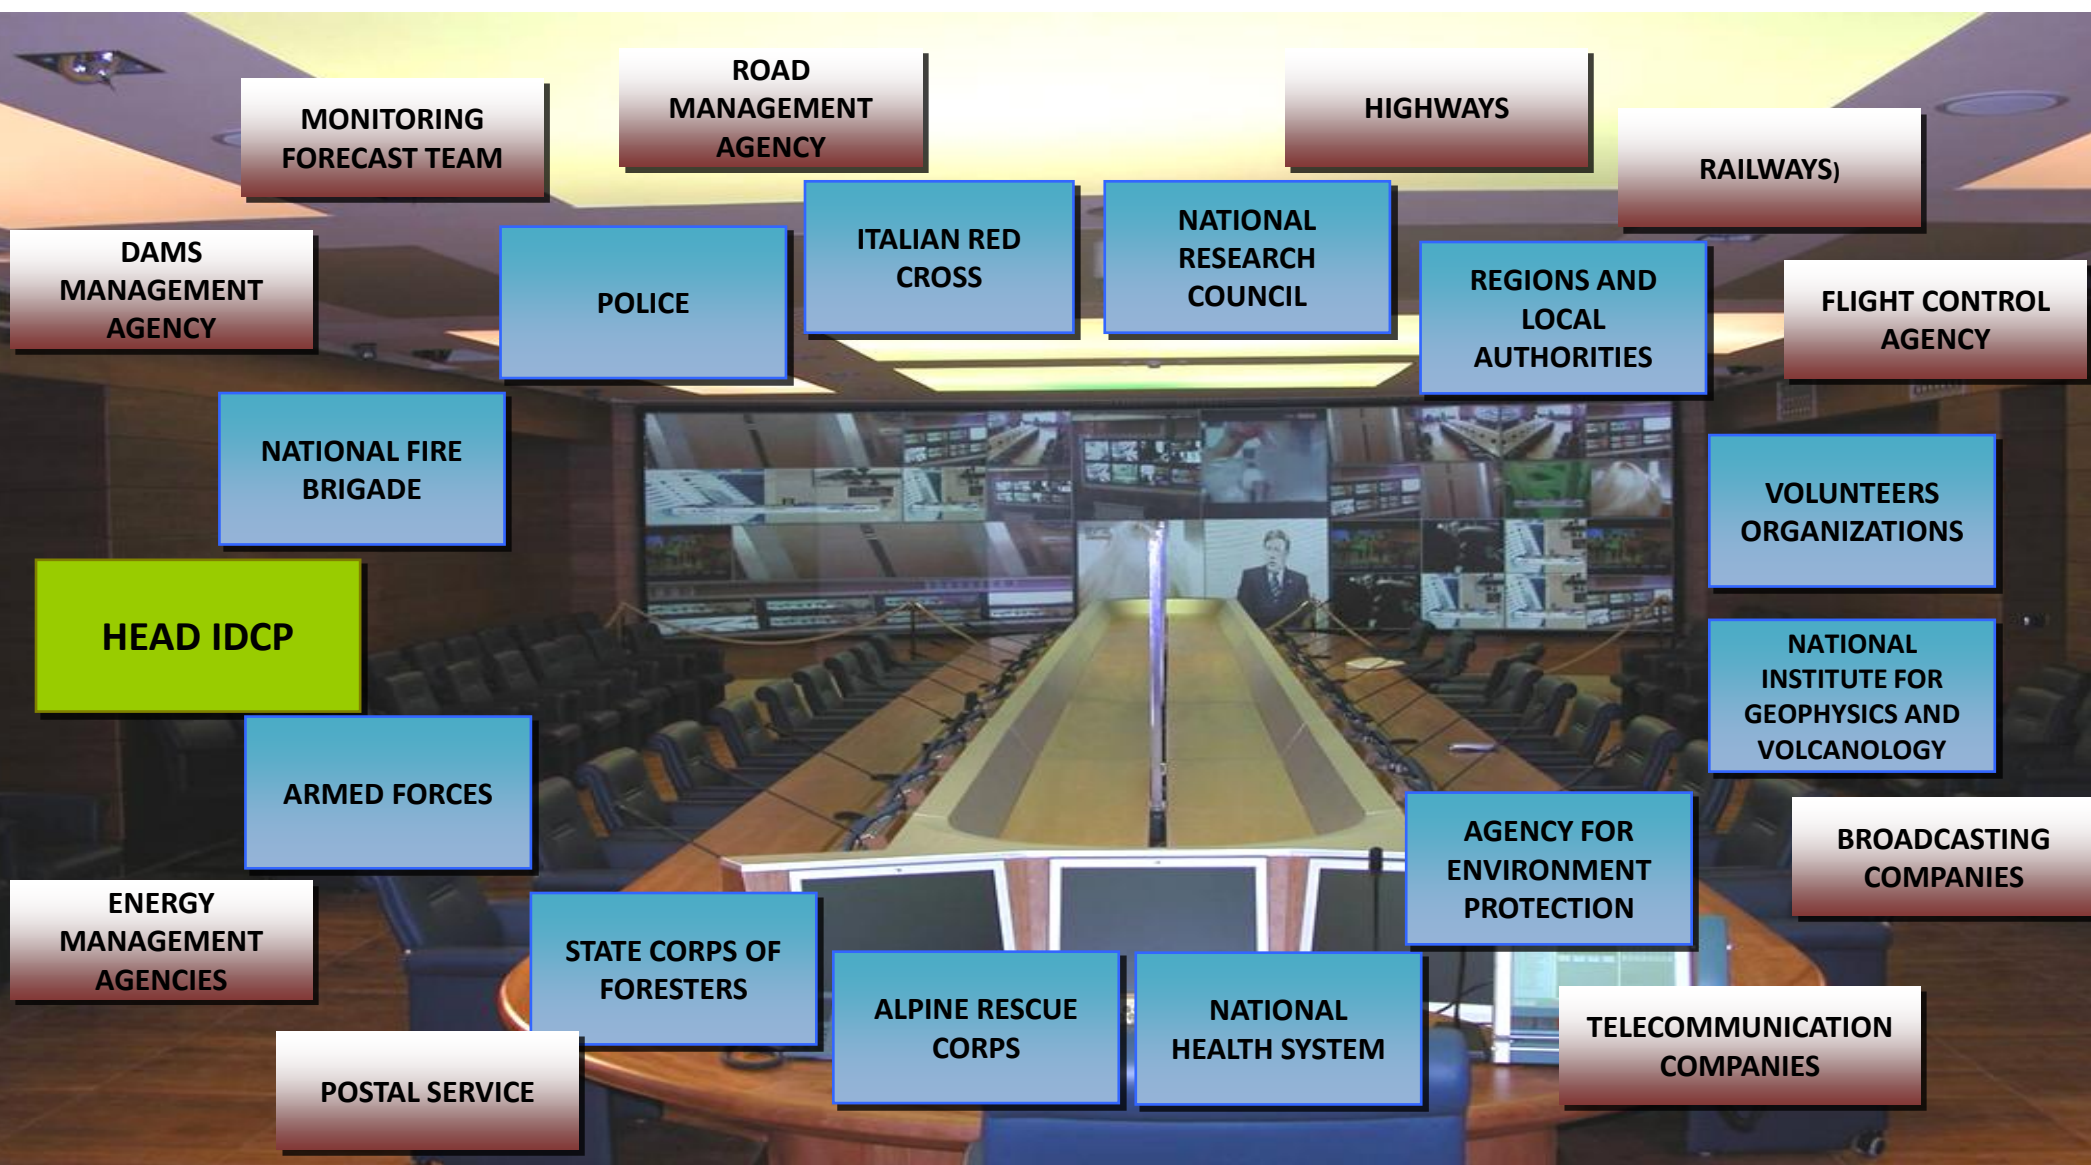

Prime minister's decree n. 1442/2013

By which the prime minister established defines stakeholders, their roles and responsibilities as well as the coordination mechanism

National Civil Protection System - Operational Committee

HFA – National Platform

STEERING COMMITTEE

THE NATIONAL PLATFORM'S STRATEGIC DECISIONAL BODY IS COORDINATED BY THE HEAD OF THE NATIONAL CIVIL PROTECTION DEPARTMENT.

ITS MEMBERS ARE AUTHORIZED TO ACT AUTONOMOUSLY IN TERMS OF DECISIONAL POWER

APPROVES THE PLATFORM GOVERNANCE, SETS THEMATIC WORK GROUPS AND ISSUES GUIDELINES FOR THE ACTIVITY OF THE PLATFORM

EXECUTIVE COMMITTEE

THE NATIONAL PLATFORM ORDINARY TECHNICAL COORDINATION BODY MONITORS THE OPERABILITY OF TECHNICAL WORK GROUPS, PROMOTES SYNERGY AND ENSURES RESULTS SHARING

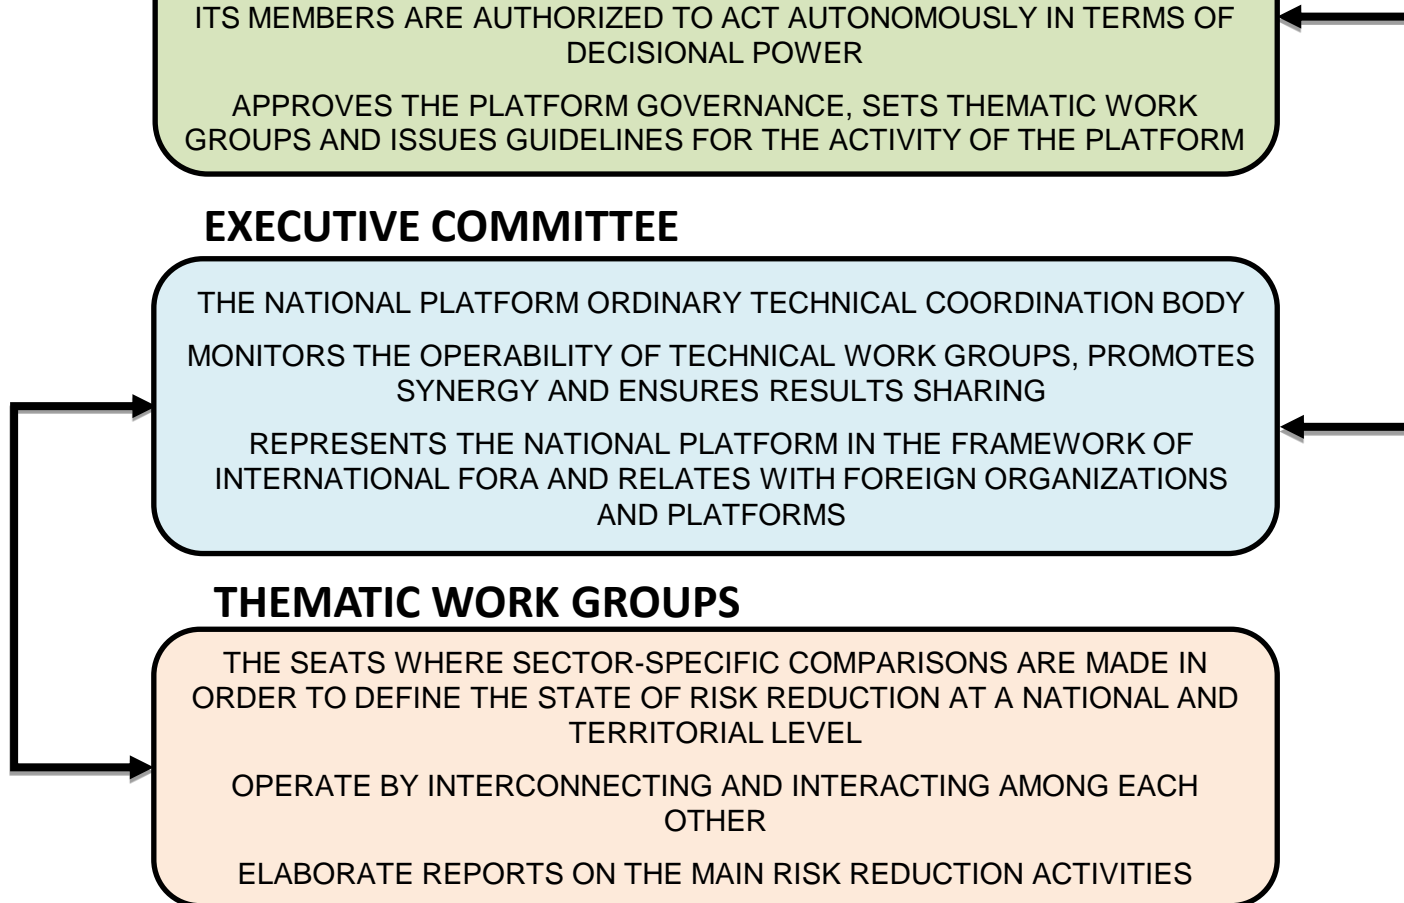

REPRESENTS THE NATIONAL PLATFORM IN THE FRAMEWORK OF INTERNATIONAL FORA AND RELATES WITH FOREIGN ORGANIZATIONS AND PLATFORMS

THEMATIC WORK GROUPS

THE SEATS WHERE SECTOR-SPECIFIC COMPARISONS ARE MADE IN ORDER TO DEFINE THE STATE OF RISK REDUCTION AT A NATIONAL AND TERRITORIAL LEVEL

OPERATE BY INTERCONNECTING AND INTERACTING AMONG EACH OTHER

ELABORATE REPORTS ON THE MAIN RISK REDUCTION ACTIVITIES

STRUCTURAL
ACTIVITIES FOR
RISK MITIGATION

At national level

- Structural mitigation.....
- Non structural mitigation risk mapping and assessment, early warning, plans, **training, public awareness**, updated regulation, development of insurance programmes
- Involving national and regional administrations in a permanent dialogue on disaster risk reduction
- Coordinating the Italian platform for disaster risk reduction
- Promoting cross-sectoral programmes, projects and initiatives
- Stimulating legislative innovation
- Promoting exchange of experiences at national and international levels

At local level

- Supporting municipalities, inter-municipality organizations and provinces in developing their own risk knowledge base, forecasting and prevention systems, contingency and emergency plans.
- Promoting disaster risk training, education, awareness
- Facilitating local campaigns, events, forums

At national level

- Activation of the Italian national platform for disaster risk reduction, involvement of national-level administrations and regional administrations;
- Disaster risk awareness campaigns at local level, with particular regards to scholars and volunteers;
- Promotion of the making cities resilient campaign initiative and objectives;
- Organization of local, national and international events on disaster risk reduction;
- Support and assistance to local authorities;
- Participation and chair the EFDRR
- Capacity building activities in developing countries

In practise

At local level

- Facilitating Quick and effective solution for restoration of productive activities
- Macking school and hospital resilient

In practise

At local level

ROLE MODEL CITIES: VENICE

The city of Venice, located into a lagoon with a fragile balance among land and sea, has evolved during its long history managing to preserve its appearance over time and its characteristics through the development of specific risk prevention and adaptation skills.

Venice has been appointed as a **Role Model City** because of its efforts towards **the protection of its immense cultural heritage**

Current activities aimed at reinforcing

- CAPACITY BUILDING AT LOCAL LEVEL (TRAINING COURSES FOR CIVIL SERVANTS AND VOLUNTEERS, PROMOTION OF INTER-MUNICIPAL AGREEMENTS);
- SUPPORT TO INSTITUTIONAL REFORMS AIMED AT ENSURING ADDITIONAL RESOURCES FOR PREVENTIVE MEASURES AND DISASTER RESPONSE AT LOCAL LEVEL.

- NEW INITIATIVES FOR PROMOTING THE INVOLVEMENT OF REGIONS AND LOCAL AUTHORITIES IN INTERNATIONAL PROJECTS AND NETWORKS, INCLUDING THE MAKING CITIES RESILIENT CAMPAIGN;
- MORE DIALOGUE ON DISASTER RISK PREVENTION WITH POLICYMAKERS;

FURTHER STEPS

AT NATIONAL LEVEL

- ESTABLISHING A PLATFORM WEBSITE AND RESERVED AREA FOR EXCHANGE OF INFORMATION
- STRENGTHENING THE INVOLVEMENT OF PRIVATE PARTNERS
- PROMOTING COOPERATION WITH FOREIGN PLATFORMS

AT LOCAL LEVEL

- FURTHER TRAINING OF MAYORS AND ADMINISTRATORS
- FACILITATING MATCHING BETWEEN NEEDS AND RESOURCES
- FURTHER REINFORCING THE ROLE PLAYED BY VOLUNTEERS
- PROMOTING TWINNINGS AMONG CITIES, INCLUDING WITH FOREIGN PARTNERS

FURTHER STEPS – Post HFA
